

POSTERS

Leachate Quality Analysis and Passive Treatment Options	Pema Choden - University of Newcastle	e008
How Safe is Your Carbon Investment?	Gerard van Rijswijk - NARGA	e019
Cost Effective DNAPL Remediation Case Study Contaminated Soils and Groundwater at Refinery Site	George A. Ivey - Ivey International	e021
Mobilization Assessment and Possibility of Increased Availability of PAHs in Contaminated Soil and Groundwater Using Column Tests	George A. Ivey - Ivey International	e024
Ex-situ Surfactant Enhanced Bioremediation (SEB) of Oil and Gas Pipeline Spill Soil Remediation	George A. Ivey - Ivey International	e025
Surfactant Enhanced Ex-situ Soil Washing of Oil and Gas Contaminated Solids Patagonia, Argentina, Case Study	George A. Ivey - Ivey International	e026
Case Study: Technical Feasibility and Economical Viability of EDBM Technology for Recovering and Reusing Salts in Dairy Processing	Maurice King - Warrnambool Cheese & Butter	e053
Seepage Diagnosis In Karstic Environments and Large-Scale Embankment Dams Through Controlled Source - Audio Frequency	Paul Rollins - Willowstick	e075
Warraber Island Waste Pilot Project	Danette McLean - Aurecon	e093
Odour and Dust Control on Remediation Sites	Tracey Bauer - EESI	e094
Adsorption of Polycyclic Aromatic Hydrocarbons and Hazardous Metal Ions onto Biochar for Water Treatment and Soil Remediation	Kenneth Latham - University of Newcastle	e097
