

Water Cycle Sustainability [Wednesday]

Wednesday, 9 March 2011

Session Room 6

Managing Water in Urban Environments		Chris Davis - UTS	
10:30 - 11:10	Keynote: Resource Recovery - The Next Challenge for the Water Industry after the Drought	Chris Hertle - GHD	e114
11:10 - 11:30	Protecting IP In The Water Industry	Sarah Herbert - ShelstonIP	e035
11:30 - 11:50	Approaches to Supplying Water	Giovanni Ebono - Simmonds & Bristow	e098
11:50 - 12:10	Urban Rain Water Harvesting - How Can We Ignore It Any Longer?	Geoff Ball - Vision Water	e051
12:10 - 12:30	The Role of Landscape Architects in WSUD	Dr Judy van Gelderen - KI Studio	e080
The Value of Communications in Water Projects		Paula Drayton - Resource Advisory	
14:00 - 14:20	Grappling with the Issues: Engaging Community Stakeholders on a Multi-Criteria Analysis of Water Supply	Stuart Waters - Twyfords	e001
14:20 - 14:40	Warrnambool Roof Water Harvesting	Ben Pohlner - Wannon Water	e070
14:40 - 15:00	Building a Bigger Tent – Managing Stakeholder Input During Environmental and Engineering Design	Cormac Farrell - Aurecon	e102
15:00 - 15:20	The Pitfalls and Challenges in Community Engagement in the Highly Sensitive Area of Water Management and	David Hope - Independent Water Consultant	e152
15:20 - 16:00	Discussion,,,	Audience forum	e214
Water Supply Sustainability		Chris Hertle - GHD	
16:30 - 16:50	Saving Water – Is it worth it?	Julian Shortt - Water Conservation Group	e113
16:50 - 17:10	The Business Case for Sustainability	Dr. Susanne Etti - ERM	e091
17:10 - 17:30	Oxamine©: Buckman Introduces Monochloramine for Antifouling and Microbiological Control in Industrial Water	Eddie Van Haute - Buckman Europe	e096

Water Cycle Sustainability and Climate Change [Thursday]

Thursday, 10 March 2011

Session Room 6

Keynote session.

Chris Davis - UTS

09:15 - 10:00 Keynote: Climate Change: What is it Telling Us About Ourselves, Our Society and Our Interactions with the Graeme Pearman - e143
Graeme Pearman
Consulting

Climate Change and Society

Chris Davis - UTS

10:30 - 11:00 Keynote: Engaging Communities in Climate Change Response Dr Chris Riedy - UTS e016

11:00 - 11:20 Emissions Trading in Australia: Lessons Learnt from the European Union Emissions Trading Scheme Sheree Hardy - ERM e089

11:20 - 11:40 Sociology of Climate Change: Comfort, Convenience and Cleanliness Bernadette Pinnell - e092
ERM

11:40 - 12:00 Protecting Personal Safety - Mitigating Climate Change Mitigation Claire Bird - PAE e085
Holmes

12:00 - 12:30 Discussion..... Audience debate e209

Reducing the Environmental Impact of Treated Water

David Hope - Consultant

14:00 - 14:20 Corporate Water Disclosure: Rationale, Trends and Opportunities Alec Tang - ERM e088

14:20 - 14:40 Environment and Energy Visioning Plans – a Shift in Thinking from a Water Utility Perspective Brigid Adams - South e054
East Water

14:40 - 15:00 The Future role of New Technologies in the Sustainability of Recycled Water Wayne Slack - e064
Grander Water
Technologies

15:00 - 15:20 Is Your Treatment Plant Producing 'Carbon Smart Water' ? Phillip Woodford - CNF e081
& Associates

15:20 - 15:40 Indicative Impacts Water Footprinting: The Concept and a Case Study Alec Tang - ERM e090

15:40 - 16:00 Discussion Audience debate e201

Climate Change - Mitigation Challenges

Chris Riedy - UTS

16:30 - 16:50 Taking Action on Climate Change - Delivering an Energy Efficiency Management Program at Sydney Water Sarah Spurrett - e056
Sydney Water

16:50 - 17:10 Cost of Carbon Abatement Opportunities at Sydney Water Phil Woods - Sydney e066
Water

17:10 - 17:30 Discussion..... Audience debate e208
